## DIGITAL SAFETY

### YEAR 1 KNOWLEDGE ORGANISER

SELF-IMAGE AND IDENTITY	ONLINE RELATIONSHIPS	MANAGING ONLINE INFORMATION	HEALTH, WELLBEING AND LIFESTYLE
<p>-It can be fun chatting with known friends.</p> <p>-However, there may be people online who make us feel sad, embarrassed, uncomfortable or upset.</p> <p>-If you see or hear something that makes you feel like this, tell a trusted adult as soon as you can.</p> 	<p>-There are times when I should ask permission to do things online, e.g. before going online, before chatting online.</p> <p>-With adult support, it can be fun to talk to people online, e.g. on video calls or messaging apps.</p> <p>-It is important to always be kind to people at all times (including online). Sometimes, things that we think are funny are not funny to other people.</p> 	<p>-Search engines, for example Google, help us to find information that we need online.</p> <p>-We should always ask permission before searching for things online.</p> <p>-We should always make sure 'safe search' is on when we search for things online.</p> <p>-We should know that some things online are real and some things are a joke/ not real. Ask a trusted adult to be sure.</p> 	<p>-It is important to follow rules to make sure that we are healthy &amp; safe at home.</p> <p>-It is important to follow rules to make sure that we are healthy and safe when using technology.</p> 

ONLINE REPUTATION	COPYRIGHT AND OWNERSHIP	ONLINE BULLYING	PRIVACY AND SECURITY
<p>-Some of our information is personal to us and should not be put online without the permission of an adult first.</p> <p>-Sometimes, information that is put online is difficult to delete and can be copied and saved by other people. We should think carefully and ask an adult before putting any information online.</p> <p>-Information that is personal to us includes our full names, our address, our email address or our telephone number.</p> 	<p>-Work that you create using technology belongs to you.</p> <p>-For example, if you filmed something, designed something or made something using technology, it belongs to you.</p> <p>-We should save our work with a suitable title/ filename so that people know it belongs to us.</p> <p>-Work that is created by others does not belong to you, even if you create a copy.</p> 	<p>-Sometimes, people can be unkind online.</p> <p>-We should behave in ways online that do not upset others. You should be as kind to people online as you would be in person.</p> <p>-If someone is unkind, <b>Several Times On Purpose</b> then this could be bullying and we need to make it <b>STOP</b>. Tell a trusted adult.</p> 	<p>-A password is something that is used to protect our information, accounts and belongings.</p> <p>-Passwords can protect our personal information. They should be difficult for other people to guess, but we need to remember them!</p>
