

Things I have experienced

Drawing circles and lines
Exploring crayons, oil pastels and paint

Key Facts

Crayons are colourful wax sticks

Oil pastels are softer and easier to blend than crayons

There are different kinds of **paint**. Paint is wet when applied to paper then dries.

Coloured pencils are like crayons, but they make smoother lines.

Still life is a special kind of art where you draw or paint things that stay still.

Colour mixing: We can mix almost all colours by using the primary colours – red, blue and yellow. Adding white can create more colours

Printing is another way of creating a picture and can be done in many different ways.

FRUITS

Uniqueness – All fruits look different and we can represent them in art in our own personal and individual ways

Intellect - We learn how different colours combine to make other colours and how we can use shapes to represent other things. We also learn about artists and their work.

Treat Others with Respect – We give respectful and encouraging feedback to peers

Salvation – We don't worry about making mistakes in our work. All work is beautiful in its own way
